CAREER SERVICE COMMITTEE

Working Group on EXTENSION TRAINING

Minutes of 3rd Meeting, 23 November 1951

The Group met at 10:30, 23 November 1951.

25X1A6a

Present:

25X1A9a

Absent:

1. The minutes of the previous meeting were reviewed and approved with the following changes:

25X1A9a Add to list of those present: [REDACTED] Pres. Secretary, Career Service Committee.

2. The Chairman reported on a meeting attended 19 November 1951 of the Career Service Committee.

3. The Chairman requested that the group members indicate their points of view on several matters for his guidance at a meeting of working-group chairman on 23 November 1951. It was the sentiment of members present that:

a. This group preferred to continue to work with rather extensive ideas as to what actually constituted Extension Training and then, through coordination with the other working groups, call out all material that would be considered in the sphere of other groups.

b. This group saw no need for group attendance at any series of presentations of various career plans, preferring to seek expert guidance in its own field as the need became apparent.

4. The Chairman inquired whether it was agreeable to the group to consider the references in the group's terms of reference on the basis of the memo from Chairman to all members - Possible actions at 23 November meeting. It was decided to use this memo as a basis for discussion and to take up points in the order presented in the memo. The following actions were taken:

- a. On the flow-charts, sections VI and VII, and on paragraphs VI and VII, page xiii: Agreed that: "The Working Group on Extension Training notes that the Flow charts VI and VII inserted between pages vii and x of the Report and paragraphs VI and VII on page xiii are summaries of Section VI (pages 11-16) and Section VII (pages 17-18), needing for their revision only editorial action to reflect whatever new form the Career Service Committee may give to these sections; therefore, this group has no comment thereon."
- b. On Appendix D, page 31: Agreed that: The Working Group on Extension training believes that Appendix D does not concern this group.
- c. On Appendix E, pages 20-21: Agreed that: The Working Group on Extension Training judges that Appendix E is of primary interest to the Working Group on Trainees, in view, however, of the statement in Appendix F, page 67, first paragraph, concerning arranging programs in the Universities, we desire to point out that changing conditions in extension training requirements and facilities are such that no definite list of extension training facilities should be made up.
- d. On Appendix I, page 60, and on Appendix K, page 72: Decision postponed until completion of consideration on other points. There was disagreement among group members both as to whether this group should express its views on the conduct of the CIA Intelligence School, and as to what methods, if any, should be taken to obtain clarification on this point.
- e. Appendix K, page 61: Agreed that: The Working Group on Extension Training believes that, because of the basic importance of language studies, the specialized needs of the Agency, and considerations for security and convenience, a considerable proportion of language instruction should be given within the Agency in the CIA Language Program.
- f. On the balance of references: Consideration not completed at time of adjournment of the group.
5. The following Agenda for the next meeting was agreed upon:
- a. Review of minutes of previous meeting.
 - b. Report by the Chairman on the meeting of all Group Chairmen.
 - c. Continuation of comments on references in Group Directive.
6. This meeting adjourned at 12:30.
